“ I went to high school with Chuck and we were good friends. He showed up at the funeral home when my mother passed away back in 2001 to express his condolences even though I had not lived in Portsmouth, Ohio for decades and had not kept in touch with him and my other high school buddies. I will always remember that thoughtful deed. I post this message late because I just now found out about his passing. Rest in peace.

“ *I have so many memories of Chuck.
We traveled around the States together for years.
From California to Florida from Texas to Minnesota and from
Arizona and Nevada to Oklahoma.
We lost contact with each other about 2005.
I had a stroke and my life went in a totally different direction.*

*I have thought about Chuck over the years and I finally did a search
on the internet.*

I am shocked and very saddened by his passing.

I have so many questions and no one to ask.

My deep heartfelt condolences to his loved ones.

*I would appreciate it if someone could possibly get in touch with me
and give me some more information.*

Again, I am so sorry for your loss.
